ERP System of the Year 2018  
for Medical Technology

## THE ERP SOLUTION FOR SMALL MEDICAL TECHNOLOGY COMPANIES

Small-size medical technology companies are especially feeling the pressure under the new DIN EN ISO 13485:2016 and the new Medical Device Regulation (MDR) with respect to computer system validation (CSV) or unique device identification (UDI). The implementation guidelines require a huge investment, quite apart from the expertise required and sufficient staff numbers.

oxaion easy, the standard software for medical technology, defuses the situation. We deliver the documentation – including a validation package – free of charge, which reduces your expenditure considerably. You can use oxaion easy as an in-house installation or have it hosted in the computer centre, and choose from a variety of financing options.

oxaion easy fulfils all the ERP requirements for your

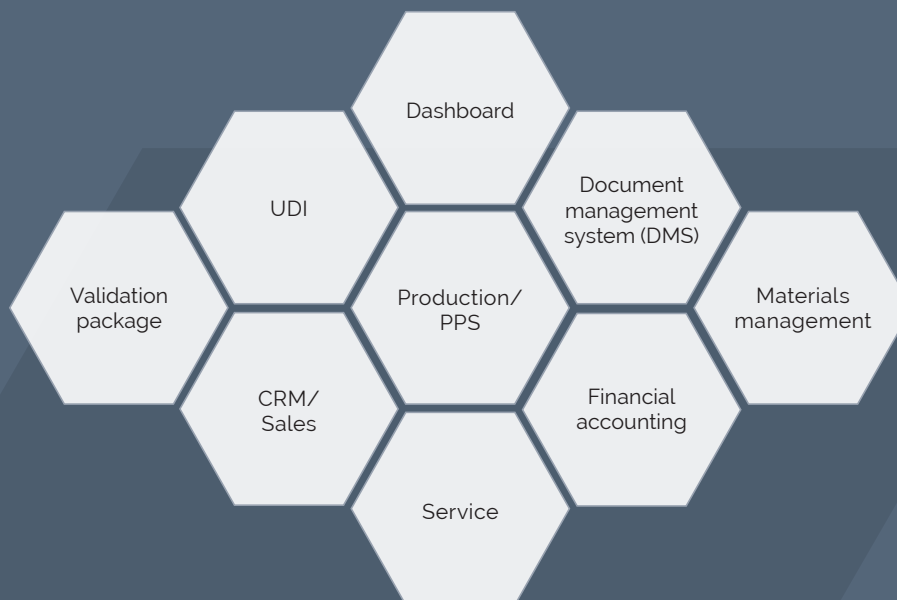

sector and delivers a robust foundation for flexible further growth.

### BENEFITS AT A GLANCE

- Preconfigured ERP standard solution that can be implemented quickly
- Tailored to your company
- Documentation plus validation package
- Can be used as an on-site installation or hosted in the computer centre
- Management and tracking of batch and serial numbers
- Audit trail
- UDI (unique device identification)
- Standard documentation

70 per cent lower expenditure: oxaion easy allows you to implement the validation requirements for medical technology companies easily – and guarantee full ERP functionality with attractive financing.

# ALL THE FEATURES YOU NEED

## PRECONFIGURED AND PLUG-AND-PLAY

### WHAT OXAION EASY OFFERS

#### Materials management

Purchasing, warehousing, sales – oxaion easy brings everything together in a seamless one-stop process and considerably increases efficiency in this environment.

#### Production/PPS

Custom and mass production – a wide range of tools support you at every stage from materials planning to production control.

#### CRM/Sales

Offers, orders, logistics, contacts, communications – oxaion easy maps general sales and dispatch processes, and offers you many design options for them.

#### Financial accounting

Entries, reminders – the extensive features and analysis options in oxaion easy ensure maximum transparency and traceability in this area.

#### Document management

ERP documents, external and manufacturing documentation – with oxaion easy, you guarantee the audit-proof storage of your documents in any file format of your choice.

#### Service

Order management, contract management, device folders – with many options to choose from, you ensure comprehensive, competent aftersales support for your customers and create the foundation for subsequent orders.

A host of further features to support your daily processes efficiently are also integrated, including extensive analyses based on key figures and dashboards.
